

**PREPARES BULLETIN
ON LIQUOR 'AD' LAW**Postoffice Department Will
Show Barred Regions.

STATES FURNISH THE DATA

Measure Enacted in March Ex-
cludes Many Publications.

A bulletin showing the States and parts of States to which the addressing of mail matter containing either advertisements or solicitations for orders for intoxicating liquors was recently prohibited by law is being compiled by the Postoffice Department.

The bulletin will be issued under section 5 of the act of March 3, providing "that no letter, postal card, circular, newspaper, pamphlet, or publication of any kind, containing advertisements or solicitations for orders for alcoholic liquors, shall be deposited in or carried by the mails of the United States, or be delivered by any postmaster or letter carrier, when addressed to any place or point in any State or Territory in which such advertising and soliciting is forbidden by local law."

The bulletin will be ready for distribution in a few days. It will be a preliminary one and subject to additions and amendments as fast as complete data is received from the States.

BOY'S CLOTHES CATCH FIRE.

The clothing of four-year-old Raymond Willis, colored, of 3225 K street northwest, caught fire today and flames were rapidly enveloping him when the mother rushed into the house and beat them out. The child was taken to Georgetown Hospital, badly burned.

**TRADERS TO START
MEMBERSHIP DRIVE**Chamber of Commerce En-
lists 200 Workers.

CANVASS BEGINS TUESDAY

Four Mornings of Next Week to
Be Devoted to Effort.

Workers are pledged, details have been completed, and all is in readiness for the intensive membership campaign to be conducted by the Washington Chamber of Commerce next Tuesday, Wednesday, Thursday, and Friday.

This week there have been five luncheons at which plans for the campaign were fully developed and at which nearly 200 representative business and professional men of Washington pledged themselves to serve as committeemen in the campaign.

The hosts at the luncheons were Col. Robert N. Harper, Charles J. Bell, Capt. James P. Oyster, William F. Gude, and A. Leftwich Sinclair, president of the Chamber of Commerce. The men present agreed to give four mornings next week to get the big membership necessary to build the representative, centralized, and effective Chamber of Commerce planned.

Committeemen will call upon the men who are considered as prospective members. Each noon a luncheon for the committeemen will be given at the New Ebbitt and reports will be heard. Lively interest has developed among the committeemen and interesting team contests are expected. The canvass can be completed, it is declared, in the time set and the week closed with a greatly increased membership.

Ladies' Home Journal and Saturday Evening Post

By GIRARD

"Various grains with the human food equivalent of 70,000,000 bushels of wheat annually go into American liquor. That would feed about 14,000,000 persons for a year.

"But of all the grain consumed in the United States, the barley, rye and corn converted into ale, beer and whisky are much the most profitable for Uncle Sam.

"Do you realize that last year your Federal Government got in taxes three dollars and a half out of every one of those 70,000,000 bushels? The liquor industry paid to internal revenue collectors \$247,000,000

"Looked at simply as a revenue producer for our Government, Uncle Sam could afford to buy grain at present prices and give it to the brewers and distillers just to collect the taxes upon their product."

HAZATED
*The Power Behind
the Strong
Iron*
IRON

Dr. Ferdinand King, a New York City Physician and Medical Author, says:
"There can be no strong, vigorous, iron men, nor beautiful, healthy, young-
checked women without iron—Hazated Iron taken three times per day after
meals will increase the strength and endurance of weak, nervous, run-down
folks 100 per cent in two weeks' time in many instances. Avoid the old
forms of metallic iron which may injure the teeth, corrode the stomach,
and thereby do more harm than good. Take only organic iron—Hazated
Iron." It is dispensed in this city by Jps. O'Donnell Drug Stores, People's
Drug Stores, and all good druggists.
